

CODING YOUR FUTURE: FIVE SUGGESTIONS

Five suggestions for Coding Your Future: 🦾

1. DESIGN: know yourself so you can be yourself
2. BUILD: you're an engineer as well as a scientist
3. TEST: start testing today, don't wait until you graduate
4. CODE: network, speak with and listen to other coders
5. DEPLOY: release early, release often

See *Coding Your Future: A Guidebook for Students* which has a section on each of these stages www.cdyf.me
