@margeconflict

I am a computer science student with an interest in version control and source code management

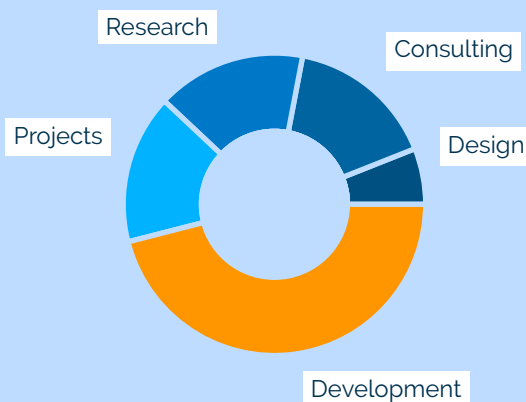

my latest degree from
University of Poppleton

And I am looking for exciting interdisciplinary projects worldwide.

SKILLS AND TECHNOLOGIES

The biggest part I contribute to my work is in the area of software development.

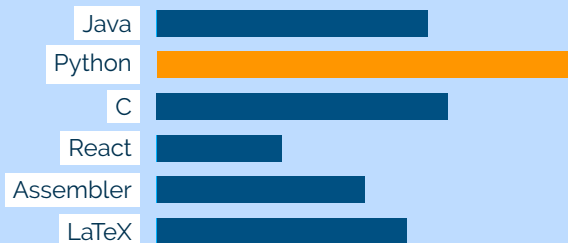

LANGUAGES

English (native)

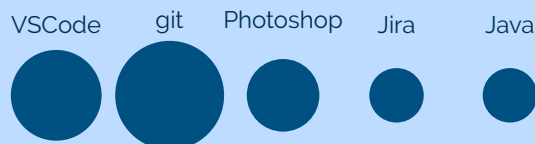

Spanish (c1)

Currently, I develop apps with Python and Java. Formerly I worked with C and React.

I am using git and VS Code regularly for my dev projects.

ACTIVITIES

of participation at
MLH

In my sparetime I practice many creative hobbies. Due to Yoga I can keep my body and mind in harmony.
